Description: The scale of this person is slight. Social media is similar you see. In the world of social media you're just one person in this large community. When you communicate through it, you may not be in the presence of the one you're connecting with; you can't see. So it's like venturing into the unknown.

Description: The stones here are placed to say something. To be something. Even though they're just stones in this immense world, they exist. When we want to say something and try to be something in this world, we still exist even though we might feel insignificant. Someone's bound to come upon us.
